TecFusion

An Open Innovation Program that facilitates the commercialization of SBIR/STTR-funded technologies

- Federally-funded technology development program
- 1982 Small Business Innovation Development Act
- Funding ~\$2.6B/year (venture capital \$1.56 B 2010)
- More than 2,000 awards/year Supports private industry and NASA organizations
- Searches all 11 SBIR/STTR databases to identify technologies that match organization needs
- Mentors small businesses for successful interactions with the target organization
- Enables a highly cost effective process for developing technology partnerships
